CONNECT | STREAMLINE | CUSTOMIZE

Make your platform even more powerful by adding the following **a la carte modules**:

- HighJump Warehouse Management Software Integration
- Triple Matching (reconcile purchase orders / vouchers / payables)
- Price Promotions
- Cross Promotions
- Comparison Charts
- Customer Reviews
- Human Resources Document Manager

**Standard Features Included in ALL Retail Backbone Implementations:**

- 45 day free, no risk trial
- 24/7/365 availability of site with 99.5% up time
- Automatic software enhancements to existing purchased components (excludes enhancements to customized pages)
- Daily data backups and 15-minute transaction log backups
- Limited technical support—covers proper functionality of purchased modules (if the site is not working properly, we will fix it)
- Does NOT cover user error, POS Data issues, customizations or support on custom developed components—these are all billed at the hourly rate or on a project basis
