# Quick Lists

Accessing reports is a breeze with Retail Backbone's Quick Lists! By saving your most common sales reports as quick lists, retrieving your data is as easy as selecting a report from the dropdown and hitting one button. Retail Backbone support can also add customized quick lists depending on the criteria within the interface.

Group Your Quick Lists

Your quick lists can be sorted into groups to easily find what you are looking for.

Export to Common Data Formats

Download or Email your data in Excel or CSV formats.

Support for Common Filters

Filter your data by brand, vendor, department, store, and product group.

Limit Access to Specific Employees

Assign a contact group to a quick list so only specific employees can access it.

Dynamic Text Field to Narrow Search

Include a Dynamic Text Field in your Quick List to search for a specific SKU, Product Style, or other attribute.
